Workshop Objectives

- To share and discuss the scientific information in the recently released report: [*Rising Seas in California: An update on sea-level rise science*](#),
- To share the results of the input collected to date via interviews and online listening sessions, and give participants an opportunity to further enhance the utility and usability of the forthcoming guidance.
- To seek input on the draft outline and core components for the updated sea-level rise guidance.

Agenda*

- I. Welcome and introductions
- II. Presentation of science report and Q&A
- III. Key findings from interviews and listening sessions
- IV. Presentation and discussion of draft guidance framework
 - a. Discussion of general policy guidance
 - b. Discussion of supporting tools and resources
- V. Debrief, next steps, and adjourn

* The agenda will be the same in Los Angeles, San Francisco and Eureka. The San Diego workshop discussions will combine discussion of the draft sea-level rise guidance framework and the recently released draft 'Safeguarding California' plan.
