

Pacific Herring Fishery Management Plan Peer Review

Public Webinar: Sharing Results

Tuesday, October 9 | 1:00pm-2:00pm

Hosted by California Ocean Science Trust

To join the webinar: <https://zoom.us/j/350374691>

By phone: +1 669 900 6833 or +1 646 876 9923

Webinar ID: 350 374 691

California Ocean Science Trust convened a scientific and technical peer review panel to evaluate science supporting the California Department of Fish and Wildlife (CDFW) draft Pacific herring Fishery Management Plan (FMP). The reviewers have finished their review and released the final peer review report, which can be found on the Ocean Science Trust [website](#).

To share the recommendations from the peer review process and allow the opportunity for members of the herring community to ask clarifying, science-based questions of the peer review panel, the community is invited to participate in a public webinar with the reviewers.

All webinar materials will be available on the [Pacific herring Peer Review webpage](#) as they become available.

Webinar Agenda

Welcome - Introductions, Webinar Overview and Purpose

Webinar purpose, review agenda, and confirm access to materials

Introduce members of the Ocean Science Trust team and Peer Review Panel

Peer Review Process

Overview of peer review process and the role of OST

Overview of Peer Review Panel Recommendations

Question and answer

Wrap-up and Next steps
